AI powered Cybersecurity

Varden Security is a premium cybersecurity company.

From ethical hacking and continuous security testing to regulatory compliance, we help organizations secure their digital systems and meet today's regulatory challenges.

Our cybersecurity solutions combine advanced technology with real-world expertise, while Varden Academy equips your teams with practical skills.

Ethical Hacking – Cybersecurity testing for your digital systems.

Compliance & Standards – GDPR, NIS2, CRA, AI act, DORA, ISO 27001…

Cyber Solutions – Digital security solutions.

Varden Academy – Training your teams. From basic to high-level skills.

Varden Sentinel – AI-powered penetration platform.
